

Client

Southwark Diocesan Board of Education / LB Greenwich

Site

Woolwich

Role

Multi-disciplinary including: Architecture, Cost Consultancy and Planning Advice

Value

£7.6m

Project

New Build 2FE Primary School

OVERVIEW

Pellings have been appointed as lead consultant providing full multi-disciplinary services for the replacement of an existing Church of England Primary School, due for completion April 2011.

The proposal seeks to maximise flexibility whilst addressing the constraints of a severely restricted site.

The 2FE design utilises a multi-storey form creating elevated playdecks adjacent classrooms, sited away from a very busy dual-carriageway.

Careful consideration of the external and internal environments has maximised opportunities for safe, secure play and learning.

A bold interpretation of the use of traditional materials has been applied to the facades, providing a robust but exciting image for the school.

Innovation is key to the design, incorporating MMC, green roofs, passive stack ventilation and wind turbines, all combining to achieve a minimum 10% renewables.
